

From November 3 to 6, 2023, Data for Progress, in collaboration with Fossil Free Media, conducted a survey of 1,279 U.S. likely voters nationally using web panel respondents, including an oversample of 18-29 year olds. The sample was weighted to be representative of likely voters by age, gender, education, race, geography, and voting history. The survey was conducted in English. The margin of error is ±3 percentage points.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Partisanship reflected in tabulations is based on self-identified party affiliation, not partisan registration. Some values may not add up to 100 due to rounding.

N=1,279 unless otherwise specified.

[1] Would you support or oppose the Biden administration taking measures to limit the amount of natural gas America exports to other countries?

[4] There is currently a proposal to pause all new natural gas export projects until their impacts on local communities, the environment, and energy prices are properly assessed.

Do you support or oppose pausing all natural gas export projects until the proper reviews are completed?

[5] Soon, the Department of Energy will decide on whether or not to grant a gas export license to Calcasieu Pass 2 (CP2), a large new gas export facility in Louisiana.

For each of the following statements, please indicate how convincing or unconvincing you think that statement is as **a reason to oppose construction** of Calcasieu Pass 2 (CP2).

— Increasing gas exports pits overseas buyers against U.S. consumers, raising energy prices for things like home heating across the country.

[7] Soon, the Department of Energy will decide on whether or not to grant a gas export license to Calcasieu Pass 2 (CP2), a large new gas export facility in Louisiana.

For each of the following statements, please indicate how convincing or unconvincing you think that statement is as **a reason to oppose construction** of Calcasieu Pass 2 (CP2).

— Approving more gas export facilities only deepens the United States' dependence on fossil fuels at a time when we should be transitioning to cleaner energy sources.
