

From November 21 to December 1, 2024, Data for Progress conducted a survey of 716 likely voters in Michigan using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, geography, and recalled presidential vote. The survey was conducted in English. The margin of error associated with the sample size is ± 4 percentage points. Results for subgroups of the sample are subject to increased margins of error. Partisanship reflected in tabulations is based on self-identified party affiliation, not partisan registration. For more information please visit dataforprogress.org/our-methodology.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=716 unless otherwise specified.

[10] Some Michigan lawmakers are proposing a package of bills known as the **Drive SAFE (Safety, Access, Freedom, and Economy) bills**.

The Drive SAFE bills would allow all Michigan residents, regardless of immigration status, the ability to obtain a driver's license or state ID, with proof of identity and Michigan residency. Non-citizen IDs would be labeled to indicate that it is not a federal document or proof of citizenship. The purpose of these bills is to enable more Michigan drivers to be tested, licensed, and insured.
