

From March 28 to April 14, 2025, Data for Progress conducted 3 pooled surveys resulting in 3,552 respondent interviews of U.S. likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, geography, and recalled presidential vote. The survey was conducted in English. The margins of error associated with each sample size is  $\pm 3$  percentage points. Results for subgroups of the sample are subject to increased margins of error. Partisanship reflected in tabulations is based on self-identified party affiliation, not partisan registration. For more information please visit [dataforprogress.org/our-methodology](https://dataforprogress.org/our-methodology).

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=3,552 unless otherwise specified.

**[1]** In which of the following settings would you prefer to live and receive support and services for a disability if you were to have one?

Response	Topline	Democrat	Independent / Third party	Republican	Female	Male	18 to 34	35 to 59	60+	No College	College	Black or African American	White	Latino	Self-identifies as disabled	Does not identify as disabled	Urban	Suburban	Rural	Persuadable voters
I would prefer to live in my home and receive support and services in my own home	89	87	89	91	89	89	82	87	94	88	91	82	91	88	89	90	87	90	91	87
I would prefer to live in a nursing home or other assistance-based institution and receive support and services there	7	8	7	6	7	8	13	8	4	7	7	13	6	8	8	7	9	7	6	10
