

DATA FOR PROGRESS

From February 7 to 10, 2026, Data for Progress conducted a survey of 1,170 U.S. likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, geography, and recalled presidential vote. The survey was conducted in English. The margin of error associated with the sample size is ± 3 percentage points. Results for subgroups of the sample are subject to increased margins of error. Partisanship reflected in tabulations is based on self-identified party affiliation, not partisan registration. For more information please visit dataforprogress.org/our-methodology.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=1,170 unless otherwise specified.

[1] Lawmakers in Congress are considering a proposal regarding the funding of the Department of Homeland Security (DHS) and various agencies under it.

Some lawmakers are proposing: Transportation Security Administration (TSA), Coast Guard, and Federal Emergency Management Agency (FEMA) **should** remain fully funded. Meanwhile, U.S. Immigration and Customs Enforcement (ICE) **should not** receive funding as it currently stands.

Do you support or oppose this proposal?
