From October 27 to November 1, 2020, Data for Progress conducted a survey of 1442 likely voters in Nevada using SMS and web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, and voting history. The survey was conducted in English. The margin of error is ±2.6 percentage points.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

This report is filtered to respondents: NV

If the 2020 presidential election were held tomorrow and the candidates for president were **Republican Donald Trump** and **Democrat Joe Biden**, who would you vote for?
