

From September 17 to 22, 2021, Data for Progress conducted a survey of 2,222 registered voters using web panel respondents in the following states: Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, Virginia, and West Virginia. The sample was weighted to be representative of likely voters by age, gender, education, race, and voting history. The survey was conducted in English. The margin of error is  $\pm 2$  percentage points

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=2,222 unless otherwise specified.

**[6]** As a part of the American Rescue Plan, your state received an allocation of federal relief funds to help people recover from the pandemic.

Some groups want to use the incoming federal relief funds to cut taxes for corporations and the wealthy.

Other groups want to use the federal relief funds to invest the funds in state and local government services that will benefit the community.

Now, knowing the different sides, which comes closer to your view, even if neither is exactly right?

**[1]** Medicaid is a federal and state partnership funded health insurance program for low-income individuals, children, their parents, the elderly and people with disabilities. A provision of the Affordable Care Act (ACA) fully-funds the expansion of Medicaid to adults up to age 64 who make at or below 138% of the federal poverty line.

Do you support or oppose Medicaid expansion to 138% of the federal poverty line (\$17,609 for an individual in 2020)?
