

DATA FOR **PROGRESS**

From October 8 to 12, 2021, Data for Progress conducted a survey of 1,226 likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, and voting history. The survey was conducted in English. The margin of error is ± 3 percentage points.

N=1,226 unless otherwise specified. Some values may not add up to 100 due to rounding.

[3] How important or not important do you think it is that government investments in clean energy deliver economic benefits to low-income communities, communities of color, and other disadvantaged communities that have been negatively impacted by pollution?	Very important	37%	61%	28%	15%
	Somewhat important	35	32	41	35
	Not very important	17	6	18	27
	Not at all important	12	2	13	23
	IMPORTANT (TOTAL)	72%	93%	69%	50%
	NOT IMPORTANT (TOTAL)	29	8	31	50
	IMPORTANT (NET)	+43	+85	+38	0

[4] Lawmakers in Congress are proposing a new national service organization called the Civilian Climate Corps. The Civilian Climate Corps will create tens of thousands of new jobs in federally-funded projects to help communities respond to climate change and transition to a clean energy economy. Civilian Climate Corps workers will be compensated at least \$15 an hour and have full healthcare benefits. Workers will also have access to educational and vocational training opportunities to build skills for future good-paying, union jobs.

Do you support or oppose the Civilian Climate Corps?
