

“From October 23 to November 3, 2021, Data for Progress conducted a survey of 361 registered and unregistered voters in Pennsylvania between the ages of 18 and 36 using web panel respondents. The sample was weighted to be representative of the voting age population using age, gender, education, race and registration status. The survey was conducted in English. The margin of error is ±5 percentage points.”

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=361 unless otherwise specified.

This report is for respondents: **PA**

[1] Are you registered to vote at your current address?
