

DATA FOR PROGRESS

From December 1 to 4, 2021, Data for Progress conducted a survey of 3,073 registered voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, and race. The survey was conducted in English. The margin of error is ± 2 percentage points.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=3,073 unless otherwise specified.

[1] Among registered voters that are grandparents:

In the past twelve months, have you helped take care of your child, grandchild, or another family member? (N=1,033)

Response	Topline	Female	Male	Black or African American	White	Grandparent	Grandparent of child under age 18	Grandparent, but not of child under age 18	Self-id as not disabled	Self-id as disabled
Yes, I have helped	59	61	55	65	57	59	64	30	58	60
No, I have not helped	41	38	44	35	42	41	36	69	41	39

[22] Split Sample:

When thinking about the Build Back Better Act, which statement comes closest to your view, even if neither is exactly right? (N=1,553)

Response	Topline	Female	Male	Black or African American	Hispanic or Latino/a	White	Grandparent	Non-grandparent	Grandparent of child under age 18	Grandparent, but not of child under age 18	Self-id as not disabled	Self-id as disabled
We should pass the Build Back Better Act because it is an investment in our nation's grandchildren, that will help keep them in school, get their parents back to work, and provide them a path to middle class.	62	64	60	78	81	57	57	65	56	63	62	65
We should not pass the Build Back Better Act because it will create unnecessary entitlement programs, grow the national debt, and drive up inflation, burdening American families with even higher cost.	30	26	36	16	11	36	38	27	39	34	31	28
