

# DATA FOR PROGRESS

From December 3 to 6, 2021, Data for Progress conducted a survey of 1,245 likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, and voting history. The survey was conducted in English. The margin of error is  $\pm 3$  percentage points.

N=1,245 unless otherwise specified. Some values may not add up to 100 due to rounding.

**[12]** The Build Back Better Act is a proposal to invest \$1.75 trillion over the next ten years.

Supporters of the Act say it will counter inflation directly because it will lower costs of things Americans spend most on, like prescription drugs, rent, child care, and elder care.

Opponents of the Act say it is reckless government spending that will create unneeded entitlement programs, add to national debt, and increase inflation, hurting consumers.

Based on what you know now, do you support or oppose the Build Back Better Act?
