

From January 29 to February 1, 2021, Data for Progress conducted a survey of 1124 likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, and voting history. The survey was conducted in English. The margin of error is ±2.9 percentage points.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

[1] Some lawmakers are saying we should make sure that people who need stimulus checks get them as quickly as possible, even if it means we also send stimulus checks to a small group of people who don't need them. Others are saying we should ensure that no one gets a check who doesn't need one, even if that means we significantly delay stimulus checks for everyone who needs one in the process. Do you think Congress should prioritize sending checks out as quickly as possible, or making sure that no one gets a check who doesn't need one?

Response	Topline	Democrat	Independent / Third Party	Republican	Female	Male	Under 45	45+	No College	College	Black or African American	Hispanic or Latino/a	White
Congress should prioritize sending checks out as quickly as possible	62	77	61	46	62	62	71	57	64	59	73	74	60
Congress should prioritize making sure no one gets a check who doesn't need one	32	17	32	50	31	33	21	39	29	37	16	21	36
Not sure	6	5	7	5	6	5	8	4	7	4	11	5	4
