

DATA FOR PROGRESS

From February 23 to February 25, 2021, Data for Progress conducted a survey of 1182 likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, and voting history. The survey was conducted in English. The margin of error is ± 3 percentage points.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

[1] Would you support or oppose giving K-12 teachers priority access to the coronavirus vaccine?

Response	Topline	Democrat	Independent / Third Party	Republican	Female	Male	Under 45	45+	No College	College	Black or African American	Hispanic or Latino/a	White	I am a parent but not of school age children (18 and older)	I am not parent	I am the parent of school age children (ages 4 to 18)

[2] Do you think K-12 teachers should or should not have priority access to the coronavirus vaccine?

Response	Topline	Democrat	Independent / Third Party	Republican	Female	Male	Under 45	45+	No College	College	Asian	Black or African American	Hispanic or Latino/a	White	I am a parent but not of school age children (18 and older)	I am not parent	I am the parent of school age children (ages 4 to 18)
Yes, we should be prioritizing teachers so they can safely resume full-time in-person teaching as soon as possible.	77	89	72	67	77	77	76	78	75	79	84	79	72	77	81	69	82
No, teachers should not receive priority access. They do not need to be vaccinated to safely reopen schools full-time and we should be getting vaccines to those with health risks and the elderly.	16	7	21	23	14	19	15	17	17	16	12	11	18	17	14	21	13
