ᴧᴧ DATA FOR *PROGRESS*

From February 23 to February 25, 2021, Data for Progress conducted a survey of 1182 likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, and voting history. The survey was conducted in English. The margin of error is ±3 percentage points.

NB: subgroups with a n-size less than 60 (<60) are not shown on these cross-tabs. We choose not to display N<60 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

[1] Some lawmakers are proposing a bill to increase accountability and reduce racial inequity in policing practices. The bill would include reforms such as creating a national database of police misconduct, prohibiting racial profiling, banning the use of chokeholds, and requiring body cameras to be used by all police officers.

We should pass these reforms. We need to protect Americans, particularly communities of color, from police brutality and violence.	62	86	64	34	66	58	66	60	60	66	83	65	58
We should not pass these reforms. Law enforcement agencies should not have restraints on protecting our communities from crimes.	29	10	24	54	24	35	24	32	30	28	10	31	33
