

DATA FOR **PROGRESS**

From February 19 to February 22, 2021, Data for Progress conducted a survey of 662 likely voters in Arizona using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, and voting history. The survey was conducted in English. The margin of error is ± 4 percentage points.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

[1] The current minimum wage in Arizona is \$11 an hour. Would you support or oppose raising the federal minimum wage to \$15 an hour?
