

DATA FOR **PROGRESS**

From February 23 to February 25, 2021, Data for Progress conducted a survey of 1182 likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, and voting history. The survey was conducted in English. The margin of error is ± 3 percentage points.

NB: subgroups with a n-size less than 60 (<60) are not shown on these cross-tabs. We choose not to display N<60 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

[1] Some lawmakers in Congress are proposing a bill to expand civil rights laws. The bill would include protections against discrimination on the basis of sex, sexual orientation, and gender identity in housing, the workplace, public services, and other areas of life.

Do you support or oppose this proposal?
