📊 DATA FOR *PROGRESS*

From March 21 to March 30, 2021, Data for Progress conducted a survey of 591 likely Democratic Primary voters in New York City using SMS and web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, and voting history. The survey was conducted in English. The margin of error is ±4 percentage points.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

[1] Below is a list of statements. For each, please say whether you agree or disagree. -- I want to see a return to a 24-hour subway service

Response	Topline	Female	Male	18 to 29	30 to 39	40 to 49	50 to 59	60 to 69	70+	No College	College	Black or African American	Hispanic or Latino/a	White	Income under $50k	Income between $50k-$100k	Income over $100k
