

From April 9 to April 12, 2021, Data for Progress conducted a survey of 1217 likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, and voting history. The survey was conducted in English. The margin of error is ±3 percentage points.

N=1217 unless otherwise specified. Some values may not add up to 100 due to rounding.

[4] President Biden is proposing a \$174 billion investment in the electric vehicle (EV) industry to do the following:

- Enable American automakers to buy domestic materials and retool factories to produce EVs
- Give consumers rebates and tax incentives to buy American-made electric vehicles
- Establish grant and incentive programs for state and local governments and the private sector to build a national network of 500,000 electric vehicle chargers along our nation's roads and highways by 2030
- Replace 50,000 diesel transit vehicles and electrify at least 20 percent of our yellow school bus fleet through a new Clean Buses for Kids Program
- Use the federal funds to replace outdated federal vehicles with electric vehicles, including United States Postal Service vehicles

[5] President Biden is proposing a \$100 billion investment in the power sector through a series of federal tax credits, grants, and other financial incentives to do the following:

- Make the electric grid more resilient to extreme weather
- Incentivize the production of clean energy and energy storage systems
- Purchase 24/7 clean power for federal buildings
- Put America on a path to 100% clean energy electricity grid by 2035

[8] Lawmakers in Congress are currently debating what should be included in an infrastructure investment bill.

Some lawmakers think this bill should include funding to improve the quality and lower the cost of healthcare for seniors and those with disabilities, upgrade hospitals that treat veterans, expand broadband internet service, as well as repairing roads and bridges.

Other lawmakers think the infrastructure proposal should focus only on roads, bridges, and transportation.

When thinking about what should be in this infrastructure bill, which statement comes closer to your view, even if neither is exactly right?

		D	I	R
This infrastructure bill should include investments in healthcare, as well as roads and bridges, broadband, and clean energy	49%	67%	46%	31%
This infrastructure bill should only include money to repair roads and bridges and nothing else.	39	22	39	60
