

From April 2 to April 5, 2021, Data for Progress conducted a survey of 1209 likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, and voting history. The survey was conducted in English. The margin of error is ±3 percentage points.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

[1] Do you think that the amount of violent crime has increased, decreased, or stayed in each of the following areas: --
The country as a whole

Response	Topline	Rural	Suburban	Urban	Not viewer of OANN, NewsMax, or Fox	Fox viewer (not OANN or NewsMax viewer)	OANN or NewsMax viewer
