

DATA FOR **PROGRESS**

From April 14 to April 15, 2021, Data for Progress conducted a survey of 1210 likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, and voting history. The survey was conducted in English. The margin of error is ± 3 percentage points.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

[1] Currently, people receiving SNAP benefits (commonly referred to as "food stamps") cannot use these benefits to purchase diapers.

Would you support or oppose changing this rule to allow SNAP benefits to be spent on diapers?
