

# DATA FOR **PROGRESS**

From May 14 to 17, 2021, Data for Progress conducted a survey of 1,214 likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, and voting history. The survey was conducted in English. The margin of error is  $\pm 3$  percentage points.

N=1214 unless otherwise specified. Some values may not add up to 100 due to rounding.

**[1]** The federal government uses a process called procurement to purchase goods and materials. The "Buy Green Act" is a proposal to over the next ten years commit \$1.5 trillion in federal procurement funds to buy sustainable and American-made products, such as electric vehicles and green building materials, for federal, state, and local use. This proposal would leverage the federal government's purchasing power to increase the availability of sustainable products, grow our green economy and reduce negative environmental impacts.
