

DATA FOR **PROGRESS**

From April 30 to May 2, 2021, Data for Progress conducted a survey of 1,402 likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, and voting history. The survey was conducted in English. The margin of error is ±3 percentage points.

N=1402 unless otherwise specified. Some values may not add up to 100 due to rounding.

<p>[1] The World Health Organization estimates that nearly one-third of the world's population currently lacks access to life-saving medicine for diseases like HIV and COVID-19. Some lawmakers have proposed waiving patent protections on life-saving medicines so drugmakers can produce cheaper, generic versions that can be widely distributed around the world.</p> <p>Would you support waiving patent protections to produce generic versions of life-saving medicines for diseases like HIV and COVID-19?</p>	Strongly support	28%	39%	25%	19%
	Somewhat support	31	32	34	28
	Somewhat oppose	15	12	15	18
	Strongly oppose	13	6	11	21
	Don't know	12	11	15	13
	SUPPORT (TOTAL)	59%	71%	59%	47%
OPPOSE (TOTAL)	28	18	26	39	
SUPPORT (NET)	+31	+53	+33	+8

<p>[2] The pharmaceutical company Moderna received nearly \$2.5 billion in funding from the U.S. government for its COVID-19 vaccine development and production that was developed in tandem with the National Institutes of Health. Which statement comes closer to your view, even if neither is exactly right?</p>	The U.S. should compel Moderna to share its vaccine technology with manufacturers around the world to increase vaccine production and end the global vaccine shortage.	59%	72%	52%	50%
	The U.S. should not compel Moderna to share its vaccine technology with manufacturers around the world because the government should not interfere with the free market.	27	18	28	37
	Don't know	13	10	21	12
