

DATA FOR **PROGRESS**

From June 9 to 11, 2021, Data for Progress conducted a survey of 1,227 likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, and voting history. The survey was conducted in English. The margin of error is ± 3 percentage points.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

[1] Which is more important to you? That jobs are plentiful--a lot of opportunities for workers--and paychecks grow more quickly, OR the costs of things you buy (like clothes and car insurance) don't increase by much.

Response	Topline	Democrat	Independent / Third party	Republican
Jobs and wages much more important	33	35	37	26
Jobs and wages somewhat more important	26	25	27	25
Prices somewhat more important	16	15	17	18
Prices much more important	18	15	13	23
Don't know	8	10	5	7
Weighted N	1,227	517	307	403
