

From June 11 to 14, 2021, Data for Progress conducted a survey of 1,175 likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, and voting history. The survey was conducted in English. The margin of error is ±3 percentage points.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

[1] Medicare is a government program that provides health insurance to Americans over the age of 65. Would you support or oppose expanding Medicare to provide dental, vision, and hearing benefits?
