

From July 29 to 30, 2021, Data for Progress conducted a survey of 1,194 likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, and voting history. The survey was conducted in English. The margin of error is  $\pm 3$  percentage points.

N=1,194 unless otherwise specified. Some values may not add up to 100 due to rounding.
