

DATA FOR PROGRESS

From December 16 to 17, 2020, Data for Progress conducted a survey of 1,098 likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, and voting history. The survey was conducted in English. The margin of error is ± 3 percentage points.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=1,098 unless otherwise specified.

[1] President-elect Joe Biden is considering proposals to eliminate racial disparities in the federal response to the coronavirus (COVID-19) pandemic, including collecting and reporting more detailed demographic data and reviewing the racial equity of relief programs.

When thinking about this, which statement comes closer to your views, even if neither is exactly right?
