M DATA FOR **PROGRESS**

From September 24 to 27, 2021, Data for Progress conducted a survey of 1,292 likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, and voting history. The survey was conducted in English. The margin of error is ±3 percentage points.

N=1,292 unless otherwise specified. Some values may not add up to 100 due to rounding.

[1]	Some	e law	ımakers	in	Congress	are	propo	sing	giving
Med	licare	the	power	to	negotiate	the	cost	of	certain
prescription drugs for all Americans.									

Supporters of this say that it will save Americans and the federal government money, both of whom are overpaying for prescription drugs, hurting seniors especially hard.

Opponents of this say that it will hurt pharmaceutical companies' ability to innovate, preventing them from developing new, life-saving medications.

Knowing what you know now, do you support or oppose allowing Medicare to negotiate the cost of prescription drugs?

[2] Some lawmakers in Congress are proposing a Clean Electricity Performance Program. This program would push utility companies to produce more energy from zero-carbon sources.

Supporters of this say that this will lower prices and improve electricity services, while cleaning up America's air and water.

Opponents of this say that the government paying companies to transition to clean energy is unnecessary because the transition is already happening.

Knowing what you know now, do you support or oppose the Clean Electricity Performance Program?
