

DATA FOR PROGRESS

From October 28 to 31, 2022, Data for Progress conducted a survey of 1,226 likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, geography, and voting history. The survey was conducted in English. The margin of error is ± 3 percentage points.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=1,226 unless otherwise specified.

[1] Based on what you know about the Inflation Reduction Act, which of the following are components of the bill? Please select all that apply.

— Raising enough revenue to pay down \$300 billion of the national debt
