

From October 22 to 30, 2022, Data for Progress conducted a survey of 281 likely South Asian American voters in Texas using SMS respondents. The sample was weighted to be representative of likely voters by age, gender, geography, and voting history. The survey was conducted in English. The margin of error is ±6 percentage points.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=281 unless otherwise specified.

[1] Do you have a favorable or unfavorable opinion of the following people or institutions?

— Joe Biden

[76] Lawmakers in Congress are considering passing the South Asian Heart Health Awareness and Research Act. The bill would provide state funding for research on heart disease, type 2 diabetes, and other heart health-related ailments. It would also fund awareness and education initiatives for communities that have higher risk of heart disease, such as the South Asian population of the United States.

Do you support or oppose the South Asian Heart Health Awareness and Research Act?
