

DATA FOR **PROGRESS**

From July 8 to 11, 2022, Data for Progress conducted a survey of 1,330 likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, and voting history. The survey was conducted in English. The margin of error is ± 3 percentage points.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=1,330 unless otherwise specified.

[1] A Palestinian-American journalist was recently killed under suspect circumstances while reporting on Israeli military activity.

Lawmakers in Congress recently introduced legislation that would require the FBI and State Department to investigate her killing and identify the origins of the weapon used to kill her.

Do you support or oppose this legislation?
