

DATA FOR PROGRESS

From October 14 to 17, 2022, Data for Progress conducted a survey of 1,237 likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, geography, and voting history. The survey was conducted in English. The margin of error is ± 3 percentage points.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=1,237 unless otherwise specified.

[1] Some lawmakers are proposing the Right to Contraception Act. The bill would protect the right to access contraceptives, such as birth control pills, condoms, and IUDs.

Do you support or oppose the Right to Contraception Act?

Response	Topline	Democrat	Independent / Third party	Republican	Female	Male	Under 45	45+	No College	College	Black or African American	White	Latino/a	Urban	Suburban	Rural

[3] The Right to Contraception Act would protect the right to access contraceptives, such as birth control pills, condoms, and IUDs. The majority of Republican members of Congress voted **against** passing the Right to Contraception Act.

When thinking about this, which of the following comes closest to your view, even if neither is exactly right?

Response	Topline	Democrat	Independent / Third party	Republican	Female	Male	Under 45	45+	No College	College	Black or African American	White	Latino/a	Urban	Suburban	Rural
Republican lawmakers made the wrong decision by voting against the bill. The Supreme Court upheld the right to contraception in 1965 and we should protect it under the law, especially as states are now enacting bans on abortions.	66	85	65	48	70	61	67	65	64	68	79	64	62	69	67	62
Republican lawmakers made the right decision by voting against the bill. The bill is unnecessary, violates religious values, and is a ploy to encourage more pro-abortion funding and legislation.	20	6	17	37	16	25	19	21	21	18	7	22	29	19	19	23
