

DATA FOR PROGRESS

From October 21 to 26, 2022, Data for Progress conducted a survey of 1,039 likely voters in Vermont using SMS and web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, geography, and voting history. The survey was conducted in English. The margin of error is ± 3 percentage points.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=1,039 unless otherwise specified.

[4] Below is the text of Proposal 5, a ballot measure that will appear on the ballot in Vermont's general election in November. After you read the text, say whether you would vote yes or no:

"To see if the voters will amend the Vermont Constitution by adding Article 22 to read:

'Article 22. [Personal reproductive liberty] That an individual's right to personal reproductive autonomy is central to the liberty and dignity to determine one's own life course and shall not be denied or infringed unless justified by a compelling State interest achieved by the least restrictive means.'"
