# 📊 DATA FOR *PROGRESS*

From September 21 to October 3, 2022, Data for Progress conducted a survey of 801 likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, geography, and voting history. The survey was conducted in English. The margin of error is ±3 percentage points.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=801 unless otherwise specified.

**[1]** How concerned, if at all, are you about the impacts of each of the following on your community?

— Extreme weather events and natural disasters

**[61]**  Congress recently passed the Inflation Reduction Act of 2022.

This bill invests $369 billion in energy security and actions to address climate change, $64 billion to lower Affordable Care Act healthcare premiums, and allows Medicare to negotiate lower drug prices.

The bill will be paid for by closing tax loopholes on corporations and the wealthiest Americans. This will generate enough revenue to also pay down the national debt by $300 billion.
