

From November 8 to 10, 2022, Data for Progress conducted a survey of 1,332 likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, geography, and voting history, including self-reported vote in the 2022 election. The survey was conducted in English. The margin of error is ± 3 percentage points.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=1,332 unless otherwise specified.

[1] Right now, do you think that economic conditions in the country as a whole are getting better or getting worse?

Response	Topline	Democrat	Independent / Third party	Republican	Female	Male	Under 45	45+	No College	College	Black or African American	White	Latino/a

[25] Which of the following best describes your view of how President Biden and Democrats addressed inflation?

Response	Topline	Democrat	Independent / Third party	Republican	Female	Male	Under 45	45+	No College	College	Black or African American	White	Latino/a
They should have done more to tackle corporate greed	27	39	33	12	28	26	32	24	26	29	38	26	22
They should have invested even more in American jobs and workers	16	17	14	17	18	14	21	13	17	14	21	15	18
They made the problems worse by overreaching and spending too much	37	9	32	64	32	42	27	42	37	37	11	41	32
They did everything that they should have done	14	30	10	3	14	15	10	16	13	16	21	14	19
