📊 DATA FOR *PROGRESS*

From November 2, 2022 to November 5, 2022, Data for Progress conducted a survey of 1,995 likely voters in New Hampshire using IVR, SMS, live caller, mail, and web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, geography, and voting history. The survey was conducted in English. The margin of error is ±2 percentage points. Some questions were seen only by a random subset of those surveyed.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

[1] Do you have a favorable or unfavorable opinion of the following people or institutions?

— **Joe Biden**
