

DATA FOR PROGRESS

From January 18 to 24, 2022, Data for Progress conducted a survey of 610 likely voters in California's 19th congressional district using SMS and web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, and voting history. The survey was conducted in English. The margin of error is ± 4 percentage points.

N=610 unless otherwise specified. Some values may not add up to 100 due to rounding.

Should be doing less	2	1	3	4
Don't know	9	7	14	6

[20] A bipartisan group of legislators have recently proposed the American Innovation and Choice Online (AICO) Act. The AICO Act puts in place new rules and standards for large technology companies.

Supporters of the bill say these rules are necessary to limit major technology corporations abusing their power by squeezing out small businesses' products on their platforms and limiting consumers' choices.

Opponents of the bill say this comes out of political motivations to burden these companies and would fundamentally alter the internet, decreasing consumers' convenience on major technology platforms.

Knowing what you know now, do you support or oppose the AICO Act?

		D	I	R

[21] Some lawmakers in Congress argue that companies like Amazon, Facebook, and Google are monopolies because they face no real competition and use their size to crowd out competition, hurting small businesses and consumers.

Others argue that real competition and consumer choice about what websites to use still exist across the Internet and that these companies are providing very valuable services that billions of people rely upon.

Knowing what you know now, do you agree or disagree that the economic power of technology companies like Amazon, Facebook and Google is a problem facing the U.S. economy?

		D	I	R
Strongly agree	34%	28%	39%	40
