

From May 5 to 11, 2022, Data for Progress conducted a survey of 1,252 likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, and voting history. The survey was conducted in English. The margin of error is ±3 percentage points.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=1,252 unless otherwise specified.

[1] Would you support or oppose allowing birth control pills to be sold over the counter, meaning that it would be available in pharmacies, grocery stores, or online without a prescription?

Response	Topline	Democrat	Independent / Third party	Republican	Female	Male	Under 45	45+	No College	College	Black or African American	White	Latino/a	Urban	Suburban	Rural

[2] The Food and Drug Administration (FDA) can authorize birth control pills to be sold over the counter, in pharmacies, grocery stores, and online, rather than requiring a doctor's prescription.

How important do you think it is for the Food and Drug Administration (FDA) to prioritize the sale of birth control pills over the counter, without the need for a prescription?

Response	Topline	Democrat	Independent / Third party	Republican	Female	Male	Under 45	45+	No College	College	Black or African American	White	Latino/a	Urban	Suburban	Rural
Very important	41	52	40	30	44	37	44	40	43	38	44	40	48	42	43	38

[3] Citing the pill's 60-year safety record for consumers, leading medical experts in women's health have endorsed allowing the sale of the birth control pill in pharmacies, grocery stores, and online, rather than requiring a doctor's visit and prescription.

Knowing what you know now, how important do you think it is for the FDA to prioritize allowing the sale of birth control pills over the counter, without the need for a prescription?

Response	Topline	Democrat	Independent / Third party	Republican	Female	Male	Under 45	45+	No College	College	Black or African American	White	Latino/a	Urban	Suburban	Rural
