📊 DATA FOR *PROGRESS*

From May 23 to June 3, 2022, Data for Progress conducted a survey of 397 likely Democratic primary voters voters in Dutchess, Orange, and Ulster counties using SMS and web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, and voting history, and county. The survey was conducted in English. The margin of error is ±5 percentage points.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=397 unless otherwise specified.

[1] Next, you'll read a bit more information about some of the candidates for the 2022 Democratic primary for State Assembly.

After each one, please indicate whether you have a favorable or unfavorable view of that candidate.

Candidate **A**, the **Democratic challenger**, is a South Asian immigrant, community organizer, and lifelong advocate for working families. She is fighting to change the status quo of state government and is committed to choosing our communities over corporations. She believes in guaranteeing healthcare and housing to all and creating good-paying union jobs as we build the renewable energy we need to protect our environment.
