

DATA FOR **PROGRESS**

From June 30 to July 4, 2022, Data for Progress conducted a survey of 1,381 likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, and voting history. The survey was conducted in English. The margin of error is ± 3 percentage points.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=1,381 unless otherwise specified.

[1] Some lawmakers in Congress have introduced a bill to address the high costs of insulin, a life-saving drug for people with diabetes. This bill would ensure that those with private insurance or Medicare pay no more than \$35 per month for insulin.

Would you support or oppose Congress passing this bill?

[2] Some lawmakers in Congress have introduced a bill to address the high costs of insulin, a life-saving drug for people with diabetes. This bill would ensure that those with private insurance or Medicare, the government-issued healthcare plan, pay no more than \$35 per month for insulin.

However, those who are uninsured would not have the same price guarantees.

Do you think lawmakers should cap the price of insulin to \$35 per month for **all Americans**, regardless of whether or not they have private insurance or Medicare?

Response	Topline	Democrat	Independent / Third party	Republican	Female	Male	Under 45	45+	No College	College	Black or African American	White
Yes, the price of insulin should be capped at \$35 per month for all Americans	81	83	79	81	83	78	74	85	82	80	76	84
No, the price of insulin should only be capped at \$35 per month for those that have private insurance or Medicare	12	10	10	14	9	14	15	10	10	15	12	10
Don't know	7	7	11	5	7	7	11	6	9	5	12	6
