

From July 29 to August 3, 2022, Data for Progress conducted a survey of 701 likely voters in Michigan using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, and voting history. The survey was conducted in English. The margin of error is ±4 percentage points.

N=701 unless otherwise specified. Some values may not add up to 100 due to rounding.

<b>[4]</b> Some lawmakers in Congress have proposed the Inflation Reduction Act of 2022. This bill will invest \$369 billion in energy security and actions to address climate change and \$64 billion to lower Affordable Care Act healthcare premiums.  The bill will be paid for by closing tax loopholes on corporations and the wealthiest Americans and allowing Medicare to negotiate drug prices. This will generate enough revenue to pay down the national debt by \$300 billion.  Do you support or oppose the Inflation Reduction Act of 2022?	Strongly support . . . . .	36%	59%	36%	14%

**[5]** The Inflation Reduction Act of 2022 includes \$369 billion in measures to increase energy security, expand clean energy production, and address climate change.

If the Inflation Reduction Act of 2022 passes, do you think that Governor Whitmer should fight to get these federal climate and clean energy funds for projects in Michigan?
