

# DATA FOR **PROGRESS**

From November 9 to 11, 2023, Data for Progress conducted a survey of 1,209 U.S. likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, geography, and voting history. The survey was conducted in English. The margin of error is  $\pm 3$  percentage points.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Partisanship reflected in tabulations is based on self-identified party affiliation, not partisan registration. Some values may not add up to 100 due to rounding.

N=1,209 unless otherwise specified.

**[1]** For the last nine months, one lawmaker in Congress has blocked the promotion of more than 375 senior military officers. This blockage is in protest of a Department of Defense policy that provides paid time off and reimbursement to service members who travel out of state to seek an abortion.

Which statement comes closer to your view, even if neither is exactly right?

Response	Topline	Democrat	Independent / Third party	Republican	Female	Male	Under 45	45+	No College	College	Black or African American	White	Latino
Promotions of U.S. service members should be blocked until the Department of Defense changes its abortion policies.	22	17	20	31	20	25	25	21	24	20	20	22	25
Promotions of U.S. service members should resume as soon as possible regardless of Department of Defense abortion policies.	63	72	59	56	61	65	56	66	60	68	61	65	57
Don't know	15	11	22	14	19	10	19	13	17	11	20	13	18
Weighted N	1,209	447	338	424	647	562	421	788	775	434	133	878	151
