

DATA FOR PROGRESS

From November 3 to 5, 2023, Data for Progress conducted a survey of 1,262 U.S. likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, geography, and voting history. The survey was conducted in English. The margin of error is ± 3 percentage points.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Partisanship reflected in tabulations is based on self-identified party affiliation, not partisan registration. Some values may not add up to 100 due to rounding.

N=1,262 unless otherwise specified.

[1] Do you support or oppose the following policy actions?

— Allocating funding for the Internal Revenue Service so that it can modernize its operation, improve customer service for taxpayers, and increase law enforcement to recover unpaid taxes from corporations and the wealthiest Americans
