

*Below are results from national polling conducted from September - November, 2023 and weighted to be representative of the likely voter population. These surveys were conducted by the Progressive Change Campaign Committee and Data for Progress.*

From September 27 to 28, 2023, Data for Progress conducted a survey of 1,255 U.S. likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, geography, and voting history. The survey was conducted in English. The margin of error is  $\pm 3$  percentage points.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Partisanship reflected in tabulations is based on self-identified party affiliation, not partisan registration. Some values may not add up to 100 due to rounding.

N=1,255 unless otherwise specified.

**[1]** How much have you seen, read, or heard President Biden discuss the following issues?

— Increasing taxes on billionaires

# DATA FOR PROGRESS

From September 13 to 14, 2023, Data for Progress conducted a survey of 1,227 U.S. likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, geography, and voting history. The survey was conducted in English. The margin of error is ±3 percentage points.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Partisanship reflected in tabulations is based on self-identified party affiliation, not partisan registration. Some values may not add up to 100 due to rounding.

N=1,227 unless otherwise specified.

## [1] Which political party do you trust more to handle the economy?

# DATA FOR PROGRESS

From September 29 to October 1, 2023, Data for Progress conducted a survey of 1,229 U.S. likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, geography, and voting history. The survey was conducted in English. The margin of error is  $\pm 3$  percentage points.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Partisanship reflected in tabulations is based on self-identified party affiliation, not partisan registration. Some values may not add up to 100 due to rounding.

N=1,229 unless otherwise specified.

**[1]** Economists have found that the rate of inflation is going down and unemployment in America is at a record low.

Which of the following statements comes closest to how you feel, even if neither is exactly right?

Response	Topline	Democrat	Independent / Third party	Republican	Female	Male	Under 45	45+	No College	College	Black or African American	White	Latino	Income under \$50k	Income over \$50k
The economy is not going in the right direction for people like me. We need to change direction and reverse President Biden's economic policies. The economy was working better under President Trump.	50	15	45	90	48	52	43	54	55	41	29	56	41	51	50
We should not return to the chaos created by President Trump. Our economy is beginning to turn a corner after a few tough years felt across the world. I trust President Biden more than President Trump to crack down on corporations that inflate the price of gas and food – and to fight for people like me.	43	80	39	8	43	43	47	41	36	56	63	39	48	40	46

# DATA FOR PROGRESS

From October 27 to 30, 2023, Data for Progress conducted a survey of 672 U.S. likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, geography, and voting history. The survey was conducted in English. The margin of error is ±4 percentage points.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Partisanship reflected in tabulations is based on self-identified party affiliation, not partisan registration. Some values may not add up to 100 due to rounding.

N=672 unless otherwise specified.

**[1]** Economists have found that the rate of inflation is going down and unemployment is at a record low.

Which statement comes closer to your view even if neither is exactly right?

Response	Topline	Democrat	Independent / Third party	Republican	Female	Male	Under 45	45+	No College	College	Black or African American	White	Latino	Income under \$50k	Income over \$50k
The economy is not going in the right direction for people like me. We need to change direction and reverse President Biden's economic policies. The economy was working better under President Trump.	53	26	47	85	49	57	46	57	56	47	46	56	53	55	50
Former President Trump inherited a strong economy and mismanaged it by gutting funding for pandemic preparedness, which left us unprepared for COVID, making our road to recovery longer. Now, after making important investments in our economy under President Biden, we are finally beginning to turn a corner after a few tough years.	38	64	35	13	41	35	40	37	34	45	44	36	37	35	41
