

From October 3 to 6, 2023, Data for Progress conducted a survey of 789 likely voters in Alabama using SMS and web panel respondents. The survey includes oversamples of the following counties: Dallas, Greene, Wilcox, DeKalb, Franklin, Washington, Perry, Lowndes, Sumter, Bullock, and Macon. The sample was weighted to be representative of likely Alabama voters by age, gender, education, race, geography, and voting history. The survey was conducted in English. The margin of error is ±3 percentage points.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Partisanship reflected in tabulations is based on self-identified party affiliation, not partisan registration. Some values may not add up to 100 due to rounding.

N=789 unless otherwise specified.

[1] Do you agree or disagree that your local community is **inclusive** of disabled people?
