

From December 15 to 17, 2023, Data for Progress conducted a survey of 1,229 U.S. likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, geography, and voting history. The survey was conducted in English. The margin of error is ±3 percentage points.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=1,229 unless otherwise specified.

[1] Lacrosse will be in the Olympics in 2028 for the first time in more than a century.

The United States is currently #1 in the men's lacrosse world rankings. The #3-ranked team is the Haudenosaunee Nationals, representing six Indigenous nations spanning from central New York into Canada.

Lacrosse originated with Indigenous peoples of North America, dating back to the 12th century. The sport has been played in the Haudenosaunee nations for centuries to mark celebration and as a ceremonial "medicine game."

The International Olympic Committee has stated that Haudenosaunee Nationals are not eligible for the Olympic Games because they don't represent a country with a National Olympic Committee.

Which of the following comes closest to your view, even if neither is exactly right?
