

DATA FOR **PROGRESS**

From January 20 to 23, 2023, Data for Progress conducted a survey of 1,230 likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, geography, and voting history. The survey was conducted in English. The margin of error is ± 3 percentage points.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=1,230 unless otherwise specified.

[8] Some colleges and universities take donations from the fossil fuel industry. Some of these colleges use these donations to fund climate and environmental research that impacts climate policy.

Would you support or oppose a law that would prevent the federal government from using research that has a clear conflict of interest when creating public policy?

[19] Some colleges and universities use their endowment and financial resources to invest in fossil fuel company stocks.

Some have called for these colleges to **divest** their funding from the fossil fuel industry by selling their fossil fuel stocks.

When thinking about this, which of the following comes closest to your view, even if neither is exactly correct?

Response	Topline	Democrat	Independent / Third party	Republican	Female	Male	Under 45	45+	No College	College	Black or African American	White	Latino/a
Colleges and universities should divest and sell their stocks in the fossil fuel industry	42	49	41	35	43	41	45	40	38	48	40	41	50
Colleges and universities should not divest and sell their stocks in the fossil fuel industry	38	30	37	46	31	45	34	39	37	38	35	39	31
