

DATA FOR PROGRESS

From January 13 to 24, 2023, Data for Progress conducted a survey of 1,512 adults nationally using web panel respondents. The sample was weighted to be representative of the U.S. adult population by age, gender, education, race, geography, and voting history. The survey was conducted in English. The margin of error is ± 3 percentage points.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=1,512 unless otherwise specified.

[1] When industries promise to deliver jobs in communities where they set up new facilities, which of the following best describes your expectations about how these industries do or do not deliver on their promises?

Response	Topline	Democrat	Independent / Third party	Republican	Female	Male	Under 45	45+	No College	College	Black or African American	White	Latino/a
I expect industries will deliver both the number and quality of jobs they promise.	37	36	34	41	38	36	31	41	36	39	36	38	29
I expect industries will deliver the number but not the quality of jobs they promise.	19	21	18	19	18	21	22	17	18	22	15	20	20
I expect industries will deliver the quality but not the number of jobs they promise.	11	13	10	12	10	13	13	10	12	10	19	10	14
I expect industries will deliver neither the number nor the quality of jobs they promise.	21	21	23	19	21	21	19	22	21	21	16	21	25
Don't know	12	10	16	10	13	10	14	10	13	8	14	11	11
Weighted N	1,512	517	522	473	783	729	666	846	1,065	447	181	1,050	256

[2] If you recall, direct air capture (DAC) is a new technology that sucks carbon dioxide out of the air. Imagine that a DAC project is being sited in your community. You will be presented with simplified project plans for the new DAC facility. Please choose which plan you prefer from each pair. You may see the same plan components several times – don't worry about remembering how you responded earlier. Just pick which plan you prefer more when you see it.
