

# DATA FOR **PROGRESS**

From February 17 to 22, 2023, Data for Progress conducted a survey of 1,243 likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, geography, and voting history. The survey was conducted in English. The margin of error is  $\pm 3$  percentage points.

N=1,243 unless otherwise specified. Some values may not add up to 100 due to rounding.

<b>[1]</b> The Inflation Reduction Act of 2022 included a provision that ensures that seniors on Medicare pay no more than \$35 per month for insulin.	We should keep the \$35 per month cap on insulin costs for seniors on Medicare . . . . .	82%	79%	76%
		<b>79%</b>		
Some legislators have proposed repealing this \$35 per month cap on insulin costs.	We should repeal the \$35 per month cap on insulin costs for seniors on Medicare . . . . .	11	9	16
				<b>12</b>
Which of the following comes closest to your view, even if neither is exactly right?	Don't know . . . . .	7	12	8
				<b>9</b>

<b>[2]</b> Would you be <b>more</b> or <b>less</b> likely to vote for a candidate <b>who wants to repeal</b> the \$35 per month cap on insulin costs for seniors on Medicare, or would it not affect your choice?	Much more likely . . . . .	13%	5%	7%
				<b>8%</b>
	Somewhat more likely . . . . .	8	11	15
				<b>12</b>
	Somewhat less likely . . . . .	14	24	22
				<b>20</b>
	Much less likely . . . . .	50	33	20
				<b>34</b>
	Wouldn't affect my vote choice . . . .	15	26	36
