

From May 17 to 21, 2023, Data for Progress conducted 2 surveys of a total of 2,527 likely voters nationally using web panel respondents. The surveys were conducted from May 17th to 18th, 2023 and May 19th to 21st, 2023. The sample was weighted to be representative of likely voters by age, gender, education, race, geography, and voting history. The survey was conducted in English. The margin of error is ±2 percentage points.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=2,527 unless otherwise specified.

[1] A refugee is a person who has been forced to leave their country in order to escape war, violence, or persecution due to factors such as their race, religion, or political opinion.
