

From July 7 to 8, 2023, Data for Progress conducted a survey of 1,220 likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, geography, and voting history. The survey was conducted in English. The margin of error is ±3 percentage points.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=616 unless otherwise specified.

[1] As you may have heard, evidence has emerged that Supreme Court Justices Clarence Thomas and Samuel Alito accepted and failed to disclose gifts from wealthy individuals who also had cases before the Supreme Court.

What do you believe should happen next?

— The Senate Judiciary should **not** investigate the actions of Supreme Court Justices.

[2] As you may have heard, evidence has emerged that Supreme Court Justices Clarence Thomas and Samuel Alito accepted and failed to disclose gifts from wealthy individuals who also had cases before the Supreme Court.

What do you believe should happen next?

— Democrats, who make up the majority of the Senate, should proceed with investigations, **regardless** of whether Republican Senators support them.
