

DATA FOR PROGRESS

From July 12 to 13, 2023, Data for Progress conducted a survey of 1,276 likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, geography, and voting history. The survey was conducted in English. The margin of error is ± 3 percentage points.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=1,276 unless otherwise specified.

[1] When thinking about gender pay inequality in the U.S., which of the following statements comes closest to your view, even if neither is exactly right?

Response	Topline	Democrat	Independent / Third party	Republican	Female	Male	Under 45	45+	No College	College	Black or African American	White	Latino/a
We must pass new legislation that closes the pay gap between women and men. The gender pay gap has deprived millions of women of the wages they deserve, and we must ensure that all women receive equal pay for equal work.	62	80	55	48	75	48	67	60	61	65	68	61	72
New legislation aimed at closing the pay gap between women and men is unnecessary and redundant. There are already laws in place that make gender pay discrimination illegal and passing more would put a heavier burden on employers.	31	14	36	45	19	44	25	34	31	30	21	34	20

[3] Last summer, a group of players from the U.S. Women's National Team settled a lawsuit against the U.S. Soccer Federation over **unequal pay** between the women's and men's national teams. These players claimed in their lawsuit that the U.S. Soccer Federation had been paying them **less** than their male counterparts due to their gender since 2017.

The U.S. Soccer Federation settled to pay these players over \$24 million in back pay and pledged to equalize pay between the U.S. women's and men's national teams in all competitions, including in this year's FIFA Women's World Cup.

Do you support or oppose the U.S. Soccer Federation's pledge to equalize pay between the U.S. women's and men's national soccer teams?

[4] Recently, President Joe Biden signed the Equal Pay for Team USA Act into law. This law requires **all athletes that represent the United States in global competition** to receive equal wages and benefits, regardless of gender.

Would you support or oppose similar legislation that would require **all athletes across professional sports leagues in the U.S.** to receive equal wages and benefits, regardless of gender?
